**Dear Parents** 

1. As the 2017 school year drew to an end, we are all proud of the achievements and accomplishments of our students and staff across the school. None of our successes would have been possible without the support of our parents and the commitment of our teaching and non-teaching staff to be "The Best That We Can Be". Your partnership, as families, has been invaluable throughout the year.

### 2. School Achievements and Accomplishments

This year from term 1 to term 3, as

As a result of our strong belief in holistic education, our students are widely recognised for their achievements in academic, sport, aesthetics and CCAs. For a complete list, please refer to the school website at http://zhenghuapri.moe.edu.sg/zhenghua-family/information-for-parents.

#### 4. Science Fair 2017

Joy of Learning & Entrepreneurial Dare

part of the Science Department Innovation Programme, P5 students were required to make a fun Science display as their Science project. In their groups, they brainstormed different ideas and tinkered with the resources provided. The programme cumulated with a Science fair in term 3 to showcase their projects to the students from the other levels. Our students across the different levels had a fun and engaging time playing with the displays and interacting with the P5 student presenters.

The programme is part of our effort to nurture the **Joy of Learning** and **Entrepreneurial Dare** in our students. We hope all parents would continue to support your children in such activities during the school holidays too.

#### 12. Helping Your Child Stay Safe Online

With increasing use of technology, many countries including Singapore have encountered cyberthreats which are defined as malicious or criminal attempts to damage or disrupt a computer network or system. Example of cyberthreats include malware, phishing, hacking and spamming.

While MOE has put in place structured Cyber Wellness education in schools; parents can also help our children stay safe online by:

a. Promoting and role modelling safe online habits.

Parents are children's first role model when it comes to online behavior. Hence, parents need to show your children how to be safe online. The values that guide everyday interactions are applicable online.

- b. Setting house rules on Internet Use. This can include:
  - ✓ Check that email is from trusted source before opening attachments.
  - ✓ Close pop-up messages.
  - ✓ Create strong passwords which include both capital and small letters, numbers and symbols.
  - ✓ Do not click on suspicious links.
  - ✓ Download software and apps only from official websites and trusted sources.

The rules could be reduced as the children get older as they develop their self-management skills.

- c. Set up filters and install and update anti-virus software on your own and your child's devices.
- d. Teach your child to protect personal information online.

Teach him/her to set the appropriate privacy settings on social media accounts and teach him/her not to reveal personal information on social media, such as address / location, phone number, full name, birthdate, school, etc.

You may refer to the following resources by MOE and other agencies on related subject:

**Every School, A Safe School** 

#### 14. Travel Declaration

To ensure the well-being and safety of our students during the school holidays, parents of ALL current P1 children need to declare their travel plans of their P1 children regardless of their travel intent via the E-Learning Portal by Thursday, 16 November 2017. This is because P1 parents and their children are new to the school environment and it is helpful that in the first school year of the children, they are reminded of their personal role in exercising social responsibility. For P2 to P6 students, parents need to declare the travel plans of their children via the same platform only if their children intend to travel.

For parents who may have difficulty in accessing the E-Learning Portal from home, please obtain a hard copy of the Travel Declaration form through the Form Teacher for submission on the same date.

#### 15. MFA eRegister for Overseas Travel

The MFA eRegister system is a voluntary and free service provided by the Ministry of Foreign Affairs (MFA) to all Singapore citizens who travel or reside overseas. Regardless of whether one is travelling abroad for study, work or leisure, alone or in a group, the eRegister system allows him/her to record information about his/her travel itinerary abroad. The information one provides to MFA will allow them to contact him/her in order to make sure that he/she is safe and, if need be, assist him/her should an emergency (eg natural disasters, civil unrest, etc) occur.

Should one decide not to eRegister, the MFA strongly encourages him/her to make the following arrangements before leaving for his/her trip:

- a. Leave a detailed travel itinerary and contact details with members of his/her family, colleagues or friends in Singapore;
- b. Purchase comprehensive travel insurance which includes medical evacuation in case he/she encounters any unexpected emergencies; and
- c. Carry the contact details of Singapore Embassies and Consulates at his/her destination of travel with him/her.

For more registration details, please visit *MFA's website at* <a href="https://eregister.mfa.gov.sg/eregisterportal/">https://eregister.mfa.gov.sg/eregisterportal/</a>.
